CARMENERE CA PROJECT CONSISTENTLY AWARDED

We are celebrating TerraNoble´s 30th anniversary and of its dedication to the Carmenere variety. The CA project is part of this commitment

CA1 Andes comes from the Los Lingues area at the foothills of the Andes Mountains and CA2 Costa from the Lolol area, close to the Pacific Ocean coast in the Colchagua Valley, separated each other by only 70km. Faced with similar vinification and ageing conditions, the wines show the distinctiveness of Carmenere, accentuating their differences as a result of the influence of the mountains and the Pacific Ocean.

We share here the most relevant international recognitions for this project
