

## VIÑA TERRANOBLE AND FUNDACIÓN CHOSHUENCO ARE CARRYING OUT AN EDUCATIONAL PROGRAM MEANT FOR EARLY CHILDHOOD IN THE MAULE REGION

TerraNoble's explicit aim has been to enchant and captivate with authentic wines that reflect our pioneering spirit, the nobleness of our land, the respect for people, and the surrounding nature.

As active members of our region, we support the communities of the Maule Valley -amongst others, San Clemente and Talca- the areas where our emblematic vineyard is located. To this end, we actively promote a Transfer Program of the Pedagogical Management Model developed by Fundación Choshuenco, an NGO with long experience in education and the training and development of the preschool stage.

The purpose of this program, aimed at 15 nursery schools, aspires to share the technical-pedagogical experience of Fundación Choshuenco. It has a family and community dimension and focuses on strengthening the skills and personal development of fathers, mothers, and guardians thus making them active participants in the education of their children in early childhood.
