Let's celebrate our National Holidays

SEPTEMBER: A MONTH FOR WINE, HOMELAND AND TRADITION

This month we proudly celebrate two milestones that reinforce the identity of our country and our winery.

On September 4, we commemorated **Chile's National Wine Day**, a date that recognizes Chilean wine as cultural heritage. Within this framework, the Wine Caucus was officially launched in the Chamber of Deputies, an initiative aimed at strengthening the promotion, protection, and global projection of our industry. TerraNoble was present at this important event, reaffirming our commitment to sustainable development and the excellence of Chilean wines.

At the same time, September invites us to celebrate our **Independence Festivities**, a month of gatherings, traditions, and toasts. In Santiago and Talca we joined events that celebrate our culture, sharing with clients, friends, and communities that are part of our history.

At TerraNoble, we believe every glass tells a story of nobility, origin, and passion. This September, we invite you to raise yours with us.

Cheers to Chile and its wine!
