25 Years of Trust:

## DECANTER OF BRAZIL HIGHLIGHTS TERRANOBLE'S CONSTANT QUALITY

*Our partner in Brazil, Decanter, gives us a 25-year collaboration balance, highlighting Viña TerraNoble as a reliable winery, a benchmark for quality and constant evolution.*

In a partnership that spans more than 25 years, our importer in Brazil, Decanter, highlights Viña TerraNoble as a key partner.

For them, we have become one of the biggest references in their portfolio thanks to the improvement in the knowledge of each variety, the expansion of lines into new regions, and the constant evolution of our techniques.

### The reason for such a long-term relationship?

Tiago Locatelli, Head Sommelier at Decanter, points out: "The main factor is that TerraNoble is a reliable winery, with constant quality, but which at the same time has evolved to adapt to new market trends".

This collaboration is perceived as more mature today, and they highlight the presence of our team to help promote the brand.

Looking to the future, they reaffirm their enthusiasm for developing the business because they consider that: "In an increasingly challenging market, TerraNoble possesses the essential pillars to satisfy consumer demands: integrity, identity, and sustainability".

## CARMENÈRE DAY: OUR ESSENCE

In other news, we celebrate the nobility and identity of our origin. On November 24th, we commemorate Carmenère Day, a variety that is our essence at TerraNoble.

Since 1994, we have trusted its potential and honor its origin in the Maule Valley. Through labels like CA1 Andes, CA2 Costa, Civis, and Azara, we express a commitment that we have been exploring for over 26 years. Cheers to this noble wine!
