*At La Noche del Carmenere competition:*

## DOUBLE GRAND GOLD FOR TERRANOBLE!

*We celebrate two of the highest honors at this prestigious competition, awards that uphold our portfolio's excellence and the winemaking vision of Marcelo García and our entire team.*

We are proud to share with our global partners and friends news that reaffirms the path of excellence we have forged at Viña TerraNoble. In the recent edition of **La Noche del Carmenere**, two of our labels were honored with the highest distinction: Grand Gold.

The award-winning wines were **Azara Carignan** and our **Brut Cencellada Sparkling Wine**. These accolades not only celebrate the intrinsic quality of every bottle but also validate the versatility of our winery and the meticulous work led by our head winemaker, Marcelo García.

Winning these awards in a competition of such technical significance provides essential support for our international strategy. It reinforces our commitment to delivering consistent wines with a clear sense of origin and a world-class standard that satisfies the most demanding palates across all our markets.

We congratulate the event organizers for promoting the quality of Chilean wine and thank our distributors for being part of this success. These awards inspire us to continue innovating and enhancing the prestige of our winemaking globally.

**Cheers to this new milestone!**
