

TERRANOBLE SHINES AT WINE PARIS 2026

We kicked off the year by strengthening our international presence at Wine Paris, a key event where we shared our latest releases and award-winning wines with industry leaders and specialized press.

The recent edition of Wine Paris has solidified its position as one of the most strategic gathering points for the global wine industry. Our team, led by General Manager Alejandro Abarca and Regional Manager Gonzalo Badilla, showcased the excellence of our valleys at the Chilean pavilion, organized by Wines of Chile.

Throughout the fair, we had the opportunity to strengthen ties with our current partners and explore new opportunities, presenting a portfolio that continues to garner international acclaim. The feedback received from importers and specialized critics reaffirms the consistency and elegance that define TerraNoble on the global stage.

We return with renewed energy and a steadfast commitment to supporting our distributors worldwide. Thank you to everyone who visited us and toasted with us to a successful 2026!

Recent scores from Tim Atkin MW confirm the high level of our winemaking, highlighting precise, consistent wines that are deeply faithful to their origin.
