

Marcelo Copello, one of Brazil's most important wine critics, grants excellent scores to TerraNoble

In his recent visit to Chile, Marcelo Copello, one of the most influential wine critics in Brazil, had the opportunity to taste our wines with Marcelo García, TerraNoble's Winemaker and to get to know the latest news and project that our winery has put into operation.

These excellent scores commit us to double our efforts with the aim of producing great wines that faithfully express the noble land that gives us the fruit to make them.

In 2019 Brazil was the third most important export market for the Chilean wine industry.
